

**PRESELI
VENTURE**

using **adventure**
to build **relationships** that work

Team Development

Our unique two day course based at Preseli Venture is constructed to achieve maximum benefit in the areas of team communication, individual and group confidence, positive interpersonal relationships and recognition of each other.

Using a powerful combination of our outdoor Adrenalin Alchemy programme alongside 'live' training delivered by highly experienced and qualified trainers from our partner organisation *Elysian Training*, the 48 hour process will help to positively resolve key workplace issues.

Particularly effective for leaders and managers, the process will provide the skills and a positive mindset to be able to problem solve the simplest to most complex issues within the workplace.

We will look closely at the key issue of motivation by using lively and fun activities that encourage people to let go of inhibitions and connect with what they enjoy in life.

The key focus is to provide challenging task and activity that expose difficulties and cause a change in behaviour from participants.

Long standing cultural divides will be challenged and new working practices and relationships can be formed.

Please let us know if you have any questions or if we can give you any more information by calling us on **01348 837709** or e mail info@preselelventure-corporate.com
